Product Description

RetroGuard™ provides ultimate stain and etch protection with a high gloss finish. This topical coating is ideal for protecting concrete and terrazzo against staining. When a spill occurs, RetroGuard’s layer of protective properties prevent the floor from immediate damage and increases the window of opportunity for clean-up.

**BENEFITS**

- Ultimate stain and etch protection
- Topical sealer
- Strong floor adhesion; does not peel or flake
- Creates high gloss and shine when burnished; cures without burnishing
- Enhances floor color including dyes and aggregate
- UV stable; may be used outdoors
- Can be re-applied anytime; does not require stripping
- Creates sacrificial layer between spill and floor
- Reduces expensive and time consuming stain repair
- Ideal for all Ashford Formula™ and RetroPlate® treated floors - new or old, standard or colored - and all concrete and terrazzo floors

Technical Info

**Form:** Milky white

**Coverage:** 1,500-2,000 ft²/gal (37-50 m²/L)

**Packaging:**
- 1 gal (3.79 L) Jug
- 5 gal (19 L) Pail
- 55 gal (208 L) Drum (by request)

**Storage Life:** One year in factory sealed container

**Freezing:** Protect from freezing

**Odor:** Low odor

**VOC:** VOC content 0 g/L. Complies with all known national, state and district AIM VOC regulations. Maximum VOC content 100 g/L.

Application

Read all instructions and SDS information before use. Use appropriate safety equipment. Always test floor surface for suitability and desired results before overall application. Evaluate vapor transmission, or other potential concerns. Let surface dry thoroughly before inspection and approval.

**PREPARATION**

Protect people, vehicles, property, plants and all surfaces not meant for treatment from product, residue, splash, fumes and wind drift. Use polyethylene or other proven protective materials. Ensure fresh air entry and cross ventilation during application and drying. Extinguish all flames, pilot lights and other potential sources of ignition during use and until all vapors are gone. Remove any dirt, oil, grease, paint, waxes, efflorescence and surface sealers before application. For best results, clean the floor with CreteClean Plus with Scar Guard™ using an auto scrubber with blue or black pads, or a mop and bucket. RetroGuard can be applied 28 days after placement of the concrete.

**Surface & Air Temperature:** Temperature should be between 40-80°F (10-26°C). RetroGuard applies, dries and cures more evenly on a cool floor. Avoid applying in direct sunlight. Use only in well ventilated areas.
